FESTIVA MAXIMA

A Portion of  
Our Planting at  
Blossom Time

## Your Success Means Our Success

IT IS with a great deal of pleasure we again send you our Peony list. While we have not seen the fruition of all our hopes and plans, we are deeply grateful for the success that we have had, and we come to you at this time with the feeling that in the very near future conditions will tend to become more stabilized.

We are exerting every effort to produce the very best stock that is possible to grow, and in our twenty-nine years' experience we believe we have never had better stock to offer than we are offering this season. We feel sure that you will be more than pleased with the stock we will send you.

Samuel Hill, a new single peony of exquisite beauty resembling a huge apple blossom, blooms are often eight to nine inches in diameter. This is one of the finest Peonies we have ever introduced. It blooms in mid-season.

You are invited to visit our garden at blooming time. See several acres of beautiful blossoms from pure white to darkest red. The new Barbur Boulevard, S. W. Pacific Highway, runs through our planting  $2\frac{1}{4}$  miles, S. W. of city limits. Also visit our showroom at our residence, three blocks north and one block east of West Portland School.

We want your good will and are willing to earn it, therefore we want you not only to be satisfied, but so well pleased that we will get inquiries from your friends, saying Berneche's peony roots were recommended by you.

We believe a spoken word of praise from a satisfied customer is the best advertisement possible.
